Volume 212

Productivity enhancement of single slope solar still by preheater – an experimental investigation V.S. Winstor Jebakumar, S. Dharmalingam (India)	1
Application of LPCF model based on ARIMA model to prediction of water quality change in water supply system No-Suk Park, Seong-Su Kim, Inseok Seo, Sukmin Yoon (Korea)	8
A fuzzy dependent-chance interval multi-objective stochastic expected value programming approach for irrigation water resources management under uncertainty Youzhi Wang, Zhong Li, Liu Liu, Ping Guo (China)	17
Performance, evaluation, and modelling of an integrated petroleum refinery wastewater treatment system using multi-layer perceptron neural networks H.A. Mokhtari, S.A. Mirbagheri, N. Rafei Dehkordi (Iran)	31
Nitrous oxide emissions from an anammox reactor from the startup to stable-running period Yue Jin, Wenjie Zhang (China)	43
Dynamics of nitrate and nitrite in saturated sand filters with enhanced substrate conditions for denitrifying bacteria R. Al-Saedi (Australia, Iraq), K. Smettem, K. Stefanova, K.H.M. Siddique (Australia)	51
The facile synthesis of poly(acrylate/acrylamide) titanium dioxide nanocomposite for groundwater ammonia removal A.M. El Shafey, M.K. Abdel-Latif, H.M. Abd El-Salam (Egypt)	61
Disinfection of biologically treated sewage using AlGaIn-based ultraviolet-C light-emitting diodes in a novel reactor system S. Sowndarya, S. Kanmani, S. Amal Raj (India)	71
Investigation of bio-desalination potential algae and their effect on water quality A. Moayedi, B. Yargholi, E. Pazira, H. Babazadeh (Iran)	78
Optimizing hybrid microbial fuel cell (MFC) and aerobic digestion reactor to gain simultaneous electricity generation and effective sludge digestion: an experimental study, mathematical modeling and recent achievements Hadi Rasouli Sadabad, G. Badalians Gholikandi, H. Arasteh Rad, Hamed Rasouli Sadabad (Iran)	87
Fabrication of low-moisture density bamboo charcoal moving biofilm reactor and removal performance in domestic sewage treatment Ting Lei, Xueli Gao (China)	103
Kinetics of organics removal in swine wastewater treatment using anaerobic moving bed biofilm reactor A.V. Ngo, O.H.T. Le, Q.T. Nguyen (Vietnam), H. Yasui (Japan), K.M. Nguyen, H.T. Nguyen (Vietnam)	112
Nutrient removal and energy consumption of aerobic granule system treating low-strength wastewater at low dissolved oxygen conditions Jinlong Zuo, Junsheng Li, Zhi Xia, Chong Tan (China)	121
Chemical modification of a polysaccharide from <i>Artemisia vulgaris</i> engenders a supersorbent for the removal of Cd ²⁺ from spiked high-hardness groundwater M. Farid-ul-Haq, A. Ali, M.A. Hussain, A. Abbas (Pakistan), F. Kausar (China), H.M.A. Amin (Egypt, Germany), M. Sher, S.Z. Hussain, I. Hussain (Pakistan)	129
Multi-walled carbon nanotubes loaded chitosan for water treatment application A.A.H. Bukhari (Saudi Arabia)	143
Groundwater contamination monitoring and modeling for a part of Satluj River basin A.K. Chaudhry, M.A. Alam, K. Kumar (India)	152

Ultrasonic-assisted adsorption of propyl paraben on ultrasonically synthesized TiO ₂ nanoparticles loaded on activated carbon: optimization, kinetic and equilibrium studies M. Pargari, F. Marahel, B. Mombini Godajdar (Iran)	164
Adsorption of Eriochrome Black T azo dye by nanocomposite of activated carbon from sugar beet and LaFeO ₃ A. Aghashiri, S. Hashemian, F. Kalantari Fotooh (Iran)	173
Single and competitive adsorption of V-EDTA and Ni-EDTA complexes onto activated carbon: response surface optimization, kinetic, equilibrium, and thermodynamic studies M. Poorbaba, M. Soleimani (Iran)	185
Box–Behnken design for understanding of adsorption behaviors of cationic and anionic dyes by activated carbon W. Boumya, M. Khnifira, A. Machrouhi, M. Abdennouri, M. Achak, S. Qourzal, H. Tounsadi, N. Barka (Morocco)	204
Statistical optimization of nitrocellulose removal from industrial wastewater by electrocoagulation using response surface method H.R. Pouretedal, M. Shamsi, D. Arabiyan (Iran)	212
Removal of xanthate from aqueous solutions by adsorption onto untreated and acid/base treated activated carbons M.M. Salarirad, A. Behnamfard (Iran), F. Veglio (Italy)	220
Simultaneous nutrients removal and biodiesel production by green microalgae cultivated in Yellow River water Lei Wang, Le Wang, M. Arif (China), Yuanzhang Zheng (USA), N. Thakur, Xingrong Liu, E.-S. Salama (China)	234
Recycling of textile dyeing wash-off liquor using Fenton technology A. Siddique, I.A. Shaikh, A. Ali, S. Islam, A. Tariq, K. Ikram (Pakistan)	244
Enhanced degradation of textile wastewater by plasma-irradiated titanium dioxide T.D. dos Santos, A.C. Ueda, A.M. Ferrari, V.A.S. Ribeiro (Brazil)	254
Pre-treatment of high boron containing wastewater by electrocoagulation E. Ateş Genceli (Turkey)	261
Diffusion of fluoxetine through a reverse osmosis membrane T. Dalbosco, M.T. Friedrich, G.C. Santos, G.O. Moraes, N.M. Grubel Bandeira, V.B. Brião (Brazil)	267
Experimental investigation of the effect of ion concentration and its valence on reflection coefficient and solute permeability of NF membranes A. Al-Saadi (Oman), H. Mousa (Oman, Jordan), G.R. Vakili-Nezhaad, A.M. Gujarathi (Oman)	276
Performance of NF90 and NF270 commercial nanofiltration membranes in the defluoridation of Algerian brackish water A. Ramdani (Algeria), A. Deratani (France), S. Taleb, N. Drouiche, H. Lounici (Algeria)	286
Separation of dye using surfactant as a collector in foam fractionation: modeling and optimization by response surface methodology and grey relational analysis T.K. Bharadwaj, K.N. Gupta (India)	297
A novel magnetically separable CoFe ₂ O ₄ /SnO ₂ composite photocatalyst for the degradation of methylene blue dye from aqueous solution M.T. Uddin, M.Z.B. Mukhlis, M.R.H. Patwary (Bangladesh)	311
Application of magnetite nanoparticles modified Azolla as an adsorbent for removal of reactive yellow dye from aqueous solutions F. Shariati, S. Shariati, M.A. Amiri Moghaddam (Iran)	323
Mechanism of oxidative decomposition of direct red 89 by Bi ₂ O ₃ /TiO ₂ composite under visible light irradiation: effect of co-existing cations and anions and artificial neural network modeling of key factor A. Bazmeh, A. Fatehizadeh, B. Bina, B. Shoshtari-Yeganeh (Iran)	333
Sorption of anionic and cationic dyes on millet seed envelope from aqueous solution A. Seghier, R. Cherrak, M. Hadjel, N. Benderdouche (Algeria)	347
Zinc oxide porous samples obtained by the sacrifice phase technique as an alternative to water depollution: processing and dye photocatalytic potential F.P. Faria, T.M. O. Ruellas, T.R. Giraldi, C. Del Roveri, S.C. Maestrelli (Brazil)	359

Citrus paradisi fruit peel extract mediated green synthesis of copper nanoparticles for remediation of Disperse Yellow 125 dye A. Ghaffar, S. Kiran (Pakistan), M.A. Rafique (China), S. Iqbal, S. Nosheen (Pakistan), Yumei Hou (China), G. Afzal, M. Bashir, U. Aimun (Pakistan)	368
Adsorption and oxidation of dye and tetracycline over hydrothermally synthesized polyresorcinol–ferrite nanoparticles R. Kaveh, H. Alijani, M.H. Beyki, M. Jafari Pirouz (Iran)	376
Adsorption of ciprofloxacin from aqueous solution onto synthesized NiO: isotherm, kinetic and thermodynamic studies D. Balarak, A.H. Mahvi (Iran), Moo Joon Shim, Seung-Mok Lee (Korea)	390
Removal of selected none-steroidal anti-inflammatory drugs from wastewater using reduced graphene oxide magnetite A. Zaka, T.H. Ibrahim, M. Khamis (UAE)	401
Adsorptive characteristics and performance of template-containing MCM-41 for removal of sodium dodecylbenzene sulfonate from aqueous solutions S. Akbari Bengar, M.A. Zanjanchi, S. Sohrabnezhad (Iran)	415
Photocatalysts behavior during hydrogen generation by water electrolysis under solar rays M.N. Raache, M.H. Sellami, M.R. Kouadri, A. Benarima (Algeria)	428
Effective magnetic separation of phosphate from natural water by a novel magnetic composite Yuanfu Ma, Chen Wang, Qing Feng (China)	434
Catalytic ozonation of antipyrine with a magnetic core/shell CeO ₂ catalyst: kinetics and mechanism Liling Chen, Siqi Fan, Pan Xiong, Jinshan Song, Qizhou Dai (China)	444
Adsorption of direct red 243 dye onto clay: kinetic study and isotherm analysis E. Kavcı (Turkey)	452
Author Index	462
