In the original version of the article "Modeling of adsorption isotherms and kinetics of Remazol Red RB adsorption from aqueous solution by modified clay (doi:10.1080/19443994.2012.749368)", the following errors appeared and are corrected below:

(1) Page 2728, First paragraph, Line 14: $6,000\,\text{min}^{-1}$ should be $6000\,\text{min}^{-1}$.
(2) Page 2735, Last paragraph, Line 11: ... binding energy. A fullstop should be inserted after the sentence.
(3) Page 2737, First paragraph: .... $(8.314\,\text{J}\,\text{K}^{-1}\,\text{mol}^{-1}$ should be $(8.314\,\text{J}\,\text{K}^{-1}\,\text{mol}^{-1})$.
(4) Page 2737, Second column: The sentence "Standard free energy of specific adsorption is given by following Eq. (14)." should be added.
(5) Page 2737, Table 3: Adsorption capaciy should be Adsorption capacity.

$(\Delta G_{\text{ads}})_q$ should be $(\Delta G^{\circ}_{\text{ads}})_q$.

(6) Page 2738, References: Reference 7, 12–123 should be 112–123.
